1	U1	LM7805CT 5v Regulator
2	U2, U4	SX28AC-DP
1	U3	LCC110 Clare Solid State Relay
1	X1	50Mhz Clock Oscillator
2		IC Socket 28 pin DIP 0.1 x 0.3

All resistors are ¼ watt unless otherwise noted.

For the two preprogrammed SX28 chips contact me at mriggs@gofastforless.com

This parts list is only for the electrical components, you will need too figure out the circuit boards, cases, and wiring for yourself.
